Catch the works of multiple artists at this playful soirée, celebrating the installation of new artwork by Devon Dikeou, Rainer Ganahl, and Anicka Yi at the Dikeou Collection and a simultaneous partner installation by Black Cube Studio's artist fellow, Chad Person. Works from the four artists include a multimedia exploration of the theater's backstage, the juxtaposition of extreme luxury with communist propaganda, turtleneck sweaters blooming with tempura-fried flowers, and a 12-meter sculpture inspired by *Toy Story*. Emceed by DJ Deep Rawk Dave and DJ Beetlebum, this contemporary celebration will bring out the youthful side in any connoisseur. Thu 6-9 p.m.
